### Artist Statement:

My current works are created in Studio 402 in the Anderson Arts Building located in Rochester, NY. Inspiration for my work is the human figure and nature landscapes. My approach is rarely literal; it's expressive. I rely on my senses and intuition while making artistic decisions. Movement, rhythm and speed are integral factors for me while I am creating. Meditation, sound baths and water/swimming have greatly influenced my current work. In addition to being a mixed media artist, I currently teach art in the Webster Central School District and have for 23 years.

### Artist Statement:

I am a painter who has lately been experimenting with printing and assemblage. I almost always work from nature or the human figure. Using the cabbage as my subject matter and Gelli-printing as my media was enjoyable. These three prints are some of the unique layered images resulting from the mighty cabbage.

“Cabbage Moon Over Phelps” - \$100

*Mixed Media*

### Artist Statement:

A humorous and historic look at cabbage inspired me to draw a cabbage moon smiling on the village of Phelps, home of sauerkraut production from 1905-1985, still celebrated today with the annual Phelps Sauerkraut Festival on the first weekend of August.

It's common for a full moon to be named for a local harvest, thus inspiring the "Cabbage" moon. On July 7, 2023 the refurbished historic clock tower was placed on the Phelps Town Hall, a significant undertaking by many. The moon appears pleased with the new clock tower.

Like many village residents, I once worked as a seasonal employee at the sauerkraut factory in Phelps. While the factory is gone, numerous local farmers continue to produce this healthy vegetable.

### Artist Statement:

British navigator Captain James Cook called it a cabbage tree because its leaves were edible and similar to cabbage. They were also used for medicinal purposes.

Cabbage Trees were transported to England by seafarers and were first cultivated from plants in New Zealand. They seemed to grow well in England's mild climate.

### Artist Statement:

Art is an idea, a concept, at its best it transcends the obvious. I live in a rural county visually populated by the living woods, hedge rows, ponds, lake shores and farmland. I see the landscape at rest, in renewal, in harvest and in decay. I celebrate the insignificant in a loud world. These pieces carry the marks of the individual print process.

## Jen Pereña

*“Cabbage” - \$300.00*

*Hand Colored Kallitype*

Instagram: @kallitypegirl

[www.kallitypegirl.com](http://www.kallitypegirl.com)

### Artist Statement:

Jen Pereña is a Rochester-based alternative-process photographer, focused mainly on the historic process of kallitype printing. She has been studying historic, alternative photographic processes at the Flower City Arts Center for over 15 years, and has been independently making kallitypes for 7 years.

My subjects range from vegetable (I love cabbage!), flower and cactus “portraits” to snowy landscapes, from macro images of natural items, such as acorns, vines, and moss to doors and windows. I love texture and transforming color images to black and white and then back to color again, and I love the process of combining watercolor painting with kallitype printing. Each piece takes hours to make, and results in a one-of-a-kind, hand-colored, archival photographic print.

"Cabbage Rules" - \$100.00

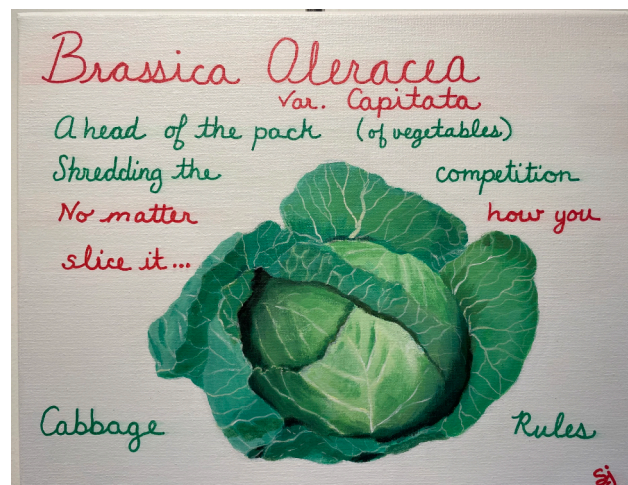

Mixed Media

Sj-arts.com

### Artist Statement:

People say artistic talent runs in my family. My grandmother bought some paints from a school supply outfit she and my grandfather worked for. They both tried painting but with Grandpa it stuck. My mother taught herself a bit and left us many treasures, and my brother picked it up from Grandpa and has been a landscape artist for 40 years.

I didn't find my art until a few years ago walking through an arts and crafts festival. No training, no school, just a wild lark that included a set of the cheapest acrylic paints I could find, wood scraps from my husband's workshop, and my grandfather's homemade easel. Now I can't imagine my life or my sense of self without it.

## Evie Dubois

"Miss Flossy" - \$95.00

Digital Photographic Art

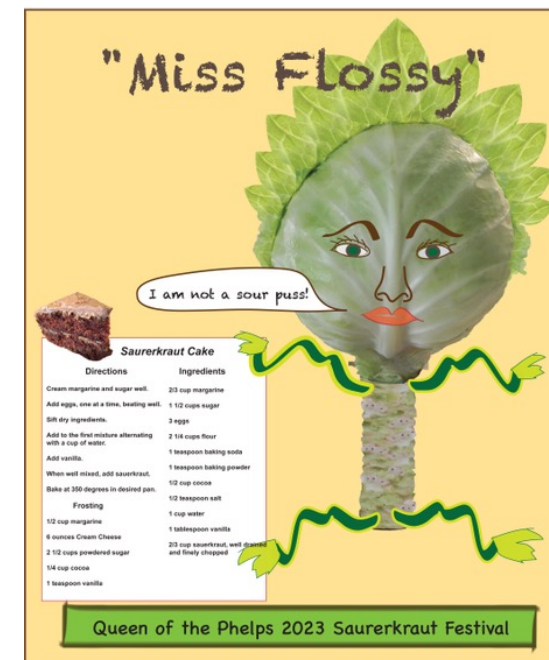

edubios2@rochester.rr.com

### Artist Statement:

I was born and raised in upstate New York with a background in both Art and later in commercial sales. During my exposure to sales, I learned the value of using photos to tell a story.

My current work is a blend of digital photography and artistic expression. The work I exhibit for Cabbage is a humorous take on this vegetable - Miss Flossy is exactly who she is - no pretense and a big dose of honesty.

This print is made from original photographs made by me.

*“Sauerkraut Weekend with a Smiling Cabbage” - \$50.00*

*Mixed Media*

Artist Statement:

My work is inspired by both what I see around me and the events that happen in my town. This work is, of course, based on the Annual Sauerkraut Weekend in Phelps. It has the feel of a promotional poster but, for me, it is more just a really fun project that helps to promote the event.
